

REPUBLIC OF OLD SOULS
LIBERTAS

BUSINESS TRANSFORMATION HANDBOOK IN THE AGE OF UN AGENDA 2030

IAIN CLIFFORD

The President of the
Republic of Old Souls.

EXECUTIVE SUMMARY

Small and medium-sized businesses (SMEs) in the UK are being systematically eroded by **tax burdens, legislative overreach, and UN Agenda 2030 sustainability policies**. Even businesses with strong customer demand struggle to remain profitable when weighed down by corporation tax, VAT, PAYE, business rates, compliance costs, and the growing pressure of net-zero regulations.

The remedy lies in stepping **out of the Crown's system of control**. By becoming a **Church Envoy of the Republic of Old Souls (ROS)** and applying the **Asset Shelter Protocol**, a business can be placed into a private international trust structure. This takes the business out of taxation and legislative obligations, ensuring all revenues are **tax-exempt**.

Coupled with the financial remedies of **the Great Escape Protocols — Infinite Money Protocol, Mortgage Redemption Protocol, and Mortgage Liberation Protocol** — the business owner can transform their financial landscape entirely.

THE REMEDY IN DETAIL

1. Asset Shelter Protocol

- Transfer the business into a private international trust.
- Shield against taxation, regulation, and Crown enforcement.
- Preserve all revenues tax-free.
- Secure assets from seizure or litigation.

2. Infinite Money Protocol

- Reclaim abandoned credit siphoned by the banks.

CONCLUSION

UK SMEs face extinction under UN Agenda 2030 — unless they step out of the rigged system.

The **Republic of Old Souls Great Escape Protocols** offer the only pathway to:

- Free a business from taxation and legislation.
- Recoup lost credit from banks and mortgages.
- Protect assets in private trust.
- Secure financial abundance for the business owner and their family.
- Create new passive income streams by becoming an Advocate.

The choice is clear: **struggle like Poor Peter**, or step into sovereignty and abundance like **Infinite Iain**.
